

8 January 1958

SUBJECT: Decrease in Procurement of Read-out Racks

TO: Contracting Officer

Dear Dan:

25X1A Reference my letter dated 14 August 1957 which requested an increase in procurement of read-out racks for Systems 1, 3 and 4. At the time of my request, [REDACTED] had a requirement for one each C, D, E, F, G, J, M, and N racks. I was told on 3 January 1958 that this requirement has changed and that the D rack is the only rack they now desire for their own use.

25X1A In confirmation of your telephone conversation with [REDACTED] 25X1A [REDACTED] on 6 January 1958, it is requested that you take contractual action with R-W to decrease our read-out rack procurement by one each C, E, F, G, J, M, and N racks. Any racks which are partially fabricated or any component parts which already have been procured should be shipped to the FOG WSSC in support of this equipment.

25X1A [REDACTED]
